

How to Measure Custom Outdoor Curtain

Measurement Instruction

✓ Give exact measurement from edge to edge.

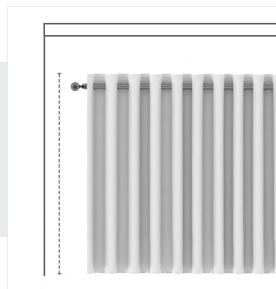

Measurement (inch)

1. Height

2. Width

2. Width:

Note: There will usually be 1-2 inch of fabric above the top of the grommet. Therefore, a 108 inch length curtain with grommet tops will have an actual hanging height of around 106 inches. When choosing a preset size or a custom size it is important to subtract 1-2 inches from the length to obtain the actual hanging height.
